Necrology
of
Radio Personalities

Supplement #3

Compiled by

Jay Hickerson

November, 1999

Covered in this listing are those individuals who devoted most of their life to radio and those who were in movies, music and other areas who appeared on radio occasionally. This third supplement to my October 1996 Necrology plus first two supplements contains many new names. There are still many names that were not included because information was not found. Also there are names included which have incomplete information. Please send me all corrections and additions that you can. Those names with (*) contain revised information.

All those known, who died, are covered.

There are four columns:

First name	Last name	Date of death	Age at death
------------	-----------	---------------	--------------

All corrections and additions are welcome. More supplements will be issued when appropriate. All information included before October 10, 1999.
